

Paraffin Extra (Green)

Product Code: FUEL010 | **Revision:** 20241120

Ultra Low Sulphur

Available Pack Sizes

Applications

Paraffin Extra is a specially modified and reduced odour paraffin with improved burning characteristics and virtually no odour. Its typical sulphur content is below 5 parts per million (ppm) and has an extremely low aromatic content. Suitable for use in indoor and outdoor paraffin heaters and lamps.

Recommended by Aztec Oils as suitable for the following applications

BS 2869 C1

Benefits

- 4L containers are fitted with a child resistant and induction heat sealed cap.
- High-quality, ultra low-sulphur product which is clean and bright burning.
- Improved burning characteristics.
- Low aromatics content reduces strength of odour during use.
- No paraffin smell or taint.
- Not classified as highly flammable.
- Ultra low sulphur - kinder to the environment.

Typical Test Data

Aromatics % (V)	<0.50
Appearance	Green fluid
Density @ 15°C (kg/m ³)	0.780 - 0.805
Flash Point (°C) (PMCC)	>62
Kinematic Viscosity @ 40°C (mm ² /s)	2.0
Odour (liquid)	Slight
Total Aromatics Content (%v/v)	0.1 (Max)

The typical test data provided is taken from average values, there will be some variability in production and therefore do not constitute a specification.

1. Use the child-resistant cap to open the container.
2. Carefully pour the required amount of paraffin into your paraffin heater, lamp or burner.
3. Seal the container immediately after use.
4. Store the container in a safe place away from away from open flames, heat sources and direct sunlight.

Health, Safety & Recommendations

In line with our policy of continued improvement, Aztec Oils reserve the right to change specifications and availability without prior notice. This product, used according to our recommendations and for its designed application, does not represent any particular risk. The information present in this technical data sheet is indicative of the product and is given in good faith, but should not form part of any specification.

Health, Safety & Recommendations

- A Safety Data Sheet is available for consultation at www.aztecoils.co.uk.
- Always ensure adequate ventilation, not recommended for use in enclosed spaces without ventilation.
- Fill day numbers are printed on the container followed by the year. for example. "00123" will be 1st day of 2023 (1st January 2023).
- Recommended shelf life is 2 years from the fill date.
- Packaging should not be left exposed to elements and drums should be laid horizontally to prevent contamination.
- PPE - Wear protective clothing, gloves and eye/face protection when using this product.
- This product should not be stored at temperatures over 40°C, kept out of direct sunlight, protected from frost and fluctuations in temperature.
- When disposing of the product after use, please protect the environment and comply with local regulations.
