

## MANUTEC BIOMOULD RELEASE B80

**Product Code:** MOU028 | **Revision:** 20240820

Biodegradable ester based universal mould release agent.

### Available Pack Sizes

### Applications

A release agent blended from renewably sourced bio-ester base stocks which can be applied neat achieve the required performance. Can be used with plastic, metal, wood and rubber moulds and is particularly suitable for situations where an excellent finish is desired.

### Applications

This product should be applied to prepared moulds and formers by swab, brush or spray. On new wooden moulds two applications before first use will assist in extending the mould life.

### Benefits

- Ease of application and enhanced blemish free products.
- Preserves timber moulds.
- Prevents metal corrosion.
- Suitable for a variety of different moulds.
- Readily biodegradable residual film.

### Typical Test Data

|                                                 |            |                   |
|-------------------------------------------------|------------|-------------------|
| Appearance                                      |            | Clear/straw fluid |
| Density @ 15°C (kg/m <sup>3</sup> )             | ASTM D4052 | 0.88              |
| Flash Point (°C)                                | ASTM D92   | >62               |
| Kinematic Viscosity @ 40°C (mm <sup>2</sup> /s) | ASTM D445  | 8                 |

The typical test data provided is taken from average values, there will be some variability in production and therefore do not constitute a specification.

### Health, Safety & Recommendations

- A Safety Data Sheet is available for consultation at [www.aztecoils.co.uk](http://www.aztecoils.co.uk).
- Packaging should not be left exposed to elements and drums should be laid horizontally to prevent contamination.
- This product should not be stored at temperatures over 60°C, kept out of direct sunlight, protected from frost and fluctuations in temperature.
- When disposing of the product after use, please protect the environment and comply with local regulations.

In line with our policy of continued improvement, Aztec Oils reserve the right to change specifications and availability without prior notice. This product, used according to our recommendations and for its designed application, does not represent any particular risk. The information present in this technical data sheet is indicative of the product and is given in good faith, but should not form part of any specification.
