

MANUTEC MOULD RELEASE CC 40

Product Code: MOU003 | **Revision:** 20260226

Low viscosity hydrocarbon based mould release agent.

Available Pack Sizes

Applications

A low viscosity hydrocarbon based release fluid formulated primarily for the production of moulded concrete products. Suitable for use on both metal and timber formwork, where it helps preserve timber and protect metal surfaces against corrosion. Provides a clean, positive release with a stain-free finish.

Applications

Apply to clean, prepared moulds and formers using a swab, brush, or spray, ensuring a light, even coating over the entire surface. Avoid over-application, as excess oil can cause surface defects, pooling, or leave residue that negatively affects the finish of the casting. On new wooden moulds, two applications before first use are recommended to assist in extending mould life.

Benefits

- Preserves timber moulds.
- Prevents metal corrosion.
- Produces blemish free products.
- Use on both metal & timber form work.
- Suitable for a variety of different moulds.

Typical Test Data

Appearance		Clear/straw fluid
Density @ 15°C (kg/m ³)	ASTM D4052	0.85
Flash Point (°C)	ASTM D92	>80
Kinematic Viscosity @ 40°C (mm ² /s)	ASTM D445	4.0

The typical test data provided is taken from average values, there will be some variability in production and therefore do not constitute a specification.

Health, Safety & Recommendations

- A Safety Data Sheet is available for consultation at www.aztecoils.co.uk.
- Packaging should not be left exposed to elements and drums should be laid horizontally to prevent contamination.
- This product should not be stored at temperatures over 60°C, kept out of direct sunlight, protected from frost and fluctuations in temperature.
- When disposing of the product after use, please protect the environment and comply with local regulations.

In line with our policy of continued improvement, Aztec Oils reserve the right to change specifications and availability without prior notice. This product, used according to our recommendations and for its designed application, does not represent any particular risk. The information present in this technical data sheet is indicative of the product and is given in good faith, but should not form part of any specification.
